NOTICE

Stafford County treats all applications and applicants equally. The County does not discriminate against religion, or on the basis of race, sex, age, national origin, or disability, in its planning, permitting, utilities, and land use processes.

Under the laws of the United States and the Commonwealth of Virginia, no government may discriminate against any religion or on the basis of race, sex, age, national origin, or disability, in its planning, permitting, utilities, and land use processes.

Under the Religious Land Use and Institutionalized Persons Act (“RLUIPA”), no government may apply its zoning or land use laws, or its policies and procedures in a manner that unjustifiably imposes a substantial burden on the religious exercise of a person, assembly, or institution.

RLUIPA also provides that no government may apply its zoning or land use laws in a manner that treats a religious assembly or institution on unequal terms with a non-religious institution or assembly.

Finally, RLUIPA provides that no government may impose or implement a land use regulation in a manner that discriminates against a religious assembly or institution.

Stafford County does not discriminate in its planning, permitting, utilities, and land use processes, practices, and policies. Stafford County treats all applications and applicants equally.

Reclassification Application Instructions

1. It is recommended that a preliminary conference should be held with the staff to discuss the application before it is filed.
2. Resolution R16-170 is the policy for the filing of rezoning and proffer amendment applications with Stafford County and is provided in the Appendix of this application. Resolution 19-188 is the policy for processing rezoning and proffer amendment applications with Stafford County and is provided in the Appendix of this application.
3. The application process takes approximately 6 to 9 months from time of submittal to a final decision. The following are the steps involved in the processing of an application:
 - The application is filed. Note that the application can be filed at any time during the month.
 - The application is reviewed by staff for completeness to be deemed to be filed. The department director will provide a written notice to the applicant identifying the date the application is deemed to be filed.
 - If the application is filed by the third Friday of the month, it will be reviewed during the following month.
 - The application is scheduled for the staff Development Review Meeting on the first Wednesday of the following month.
 - Staff provides review comments by the end of the same month.
 - Applicant resubmits application materials in response to staff comments.
 - Staff reviews revised application materials. The length of time for review is dependent on the number of outstanding issues.
 - Once the issues are addressed, the case is scheduled for the next available Planning Commission public hearing. Approximately 1 month is needed to meet public notification requirements.
 - Following the Planning Commission public hearing, the Planning Commission has up to 100 days to make a decision.
 - Following the Planning Commission decision, the case is scheduled for a public hearing with the Board of Supervisors. The Chairman of the Board typically schedules the case, one month after the Planning Commission decision for required public notice.
 - Following the public hearing, the Board of Supervisors must decide to approve or deny the request no later than one year from the date the application is filed, unless extended at the Applicant's written request or consent.
4. Additional information regarding proffers is provided in the Appendix of this application.
5. Pursuant to R19-188, any pending application exceeding 18 months from the date of filing a complete application shall be administratively closed unless a time extension was requested in writing by the applicant and granted by the Board.

Trip Generation Calculation Guidelines

- Traffic volumes shall be based on the rates or equations published in the latest edition of the Institute of Transportation Engineers Trip Generation.
- If a site has multiple entrances to highways, volumes on all entrances shall be combined for the purposes of this determination.
- If the site does not have direct access to a state maintained road, the site's connection is where the site connects to the state highway system.
- Traffic volumes shall NOT be reduced through internal capture rates, pass by rates, or any other reduction methods.
- For redevelopment sites only: when the existing use is to be redeveloped as a higher intensity use, trips currently generated by the existing development that will be removed may be deducted from the total trips that will be generated by the proposed land use.
- When rezoning, use the highest possible traffic generating use unless development is limited by proffer to less than the possible highest traffic generation.

For development proposals that generate 1,000 or more vehicle trips per peak hour the applicant shall request a scope of work meeting with VDOT and Stafford County Office of Transportation to discuss the required elements of a traffic impact analysis.

*The highest intensity use is the highest possible use allowable under the zoning requirements for the entire property should it be developed to its fullest extent possible under the current building guidelines. The trip generation for the highest intensity use shall be analyzed in the study. The only exception is if proffers limit the area and type of uses.

NOTICE TO APPLICANTS REGARDING PROFFERS

Background

Proffers may be provided by an applicant in order to offset the impacts of development. They are voluntary conditions that run with the zoning of the property. Proffers may restrict the use of the property, accommodate specified public improvements, or provide monetary contributions to offset impacts of the proposed development. Proffers must be signed by the applicant, notarized, and submitted to the County in final form before the Board of Supervisors' public hearing on the zoning reclassification application. You are not required to submit proffers as part of your zoning reclassification application.

Staff Review

Proffers (if submitted) will be reviewed and approved to form by the County Attorney and the Zoning Administrator. Additionally, all affected County Departments shall comment on the purposed proffer prior to the publication of any staff report. Planning staff will be responsible for coordinating review comments and scheduling public hearing dates. The timeline for public hearings included in the application is for informational purposes only. Staff will recommend that the Board of Supervisors reject any final proffers that have not been approved to form.

**Notice to Applicants Regarding
Residential Proffer Submissions**

The General Assembly passed a law, effective July 1, 2016, which applies to proffers relating to new residential developments and residential components of mixed-use properties. Such law was amended again in 2019, effective July 1, 2019. The law, Virginia Code § 15.2-2303.4 as currently stated (the "Statute"), makes it unlawful for a locality to require an "unreasonable proffer." In order to ensure compliance with the Statute, unless proffers are deemed reasonable by the applicant and owner as described below, certain applications must include an analysis showing how each proffer made complies with the Statute's requirements. Refer to the Election of Proffer Legislation for Residential Development Worksheet on page 28 to determine if a Proffer Reasonableness Analysis is required with your application. Guidance for preparing a Proffer Reasonableness Analysis is provided below.

Proffer Reasonableness Analysis

A Proffer Reasonableness Analysis must include individual analysis for each proffer (on-site and off-site, as those terms are defined in the Statute) showing how it addresses an impact which is specifically attributable to the proposed new residential development or use. You must include an additional individual analysis for each off-site proffer showing:

- 1) The proffer addresses an impact to at least one offsite public facility.

- 2) That the proffer addresses a need, or an identifiable portion of a need, for a listed public facility or facilities, in excess of existing public facility capacity at the time of the rezoning or proffer condition amendment.
- 3) That the new residential development or use will receive a direct and material benefit from the proffer, with respect to any stated public facility improvement(s).

Your analysis for each proffer should clearly and separately address each of the above requirements.

Unreasonable Proffers

If you ever believe that a County official has required that you make an unreasonable proffer, as that term is defined in the Statute, you shall immediately notify the County's Director of Planning and Zoning and in any event, at least prior to when such application is considered and/or decided by the Board. In the event such a requirement is made, the County will not consider the unreasonable proffer when processing the zoning reclassification application.

Applicants should be aware that any and all project impacts can serve as a basis for denial, even though not all impacts can be mitigated by proffers under the Statute. Applicants must rely on the thoroughness of their written analysis to show how any proffers being made mitigate impacts, and to what extent. Some proffers may be deemed unreasonable and therefore unlawful because they overstate an impact, or understate available capacity at a public facility. The County may reject a proffer for being unreasonable, but it will not suggest or request that a substitute proffer be made, even if there is a substitute proffer which may be permissible under the Statute. This is due to the possibility that an unreasonable proffer could be accidentally suggested, requested, or accepted in violation of the law. It is incumbent on applicants to put forth the best possible application throughout the process.

Notwithstanding the above, the applicant or owner may, at the time of filing an application or during the development review process, submit any onsite or offsite proffer that the owner and applicant deem reasonable and appropriate, as conclusively evidenced by the signed proffers.

Election of Code Provisions for Residential Proffers Worksheet

The Code of Virginia establishes standards that localities must follow when considering conditional rezoning proffers. The legislation and accompanying standards have changed over the past several years. What standards apply is dependent on when an application is submitted. In addition, in certain instances, an applicant can elect to choose which standards to apply.

If you are submitting a proffer statement for residential developments or residential components of mixed-use properties, please complete the following form to determine which Virginia Code legislation you are electing to have applied to your project. This form also will determine if a Proffer Reasonableness Analysis is required or optional.
