| Administrative Setup | 4 |
| Send a Record from Handtevy | 5 |
| Receive a Record in ESO EHR | 6 |

ESO EHR has the capability to receive information from external systems; such as Handtevy. This feature improves efficiency and data quality for agencies by importing information from records documented with the Handtevy Pediatric Resuscitation System.

The following information can be imported from the Handtevy Mobile to ESO EHR:

- Patient's Age
- Patient's Weight
- Medication Given
- Medication Time
- Medication Dose
- Medication Route
- Medication Notes
- Procedure Performed
- Procedure Time
- Procedure Measurements
- Procedure Success
- Procedure Notes

1. To get started, setup your integration account by providing your Agency State ID, Agency Number and State GNIS Code to your Handtevy representative (prior purchase of Handtevy required).

Your Agency Number and Agency State ID can be found in your ESO Admin application.

The screenshot shows the 'ADMIN' interface with a sidebar on the left containing 'GENERAL', 'USERS', 'SECURITY', 'EHR', and 'FIRE'. The main content area is titled 'Agency Info' and 'EMS'. Below the title is a sub-header: 'Identification and classification information for the EMS portion of your agency.' The form includes the following fields:

- Agency Number: [#####]
- National Provider ID: [#####]
- Agency State ID: [#####]
- Level Of Service: [EMT-Paramedic]
- Main Service Type: [911 Response (Scene) with Transp...]
- Other Service Types: [911 Response (Scene) with... 911 Response (Scene) without...]

Admin > General > Agency Info > EMS

Your State GNIS code is a two-digit number listed below.

| | | | |
|-------------------------|------------------|-------------------|-------------------|
| 01 Alabama | 17 Illinois | 30 Montana | 44 Rhode Island |
| 02 Alaska | 18 Indiana | 31 Nebraska | 45 South Carolina |
| 04 Arizona | 19 Iowa | 32 Nevada | 46 South Dakota |
| 05 Arkansas | 20 Kansas | 33 New Hampshire | 47 Tennessee |
| 06 California | 21 Kentucky | 34 New Jersey | 48 Texas |
| 08 Colorado | 22 Louisiana | 35 New Mexico | 49 Utah |
| 09 Connecticut | 23 Maine | 36 New York | 50 Vermont |
| 10 Delaware | 24 Maryland | 37 North Carolina | 51 Virginia |
| 11 District of Columbia | 25 Massachusetts | 38 North Dakota | 53 Washington |
| 12 Florida | 26 Michigan | 39 Ohio | 54 West Virginia |
| 13 Georgia | 27 Minnesota | 40 Oklahoma | 55 Wisconsin |
| 15 Hawaii | 28 Mississippi | 41 Oregon | 56 Wyoming |
| 16 Idaho | 29 Missouri | 42 Pennsylvania | 72 Puerto Rico |

State/Territory GNIS Code

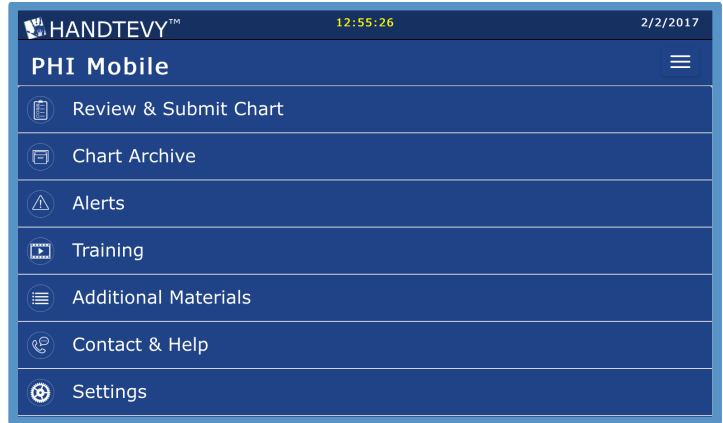

2. Once your integration account is setup with Handtevy, turn on the feature in ESO from Admin > EHR > Optional Configurations.

The screenshot shows a configuration box with the following text: 'Import medication doses, equipment sizes, and success results of a patient encounter from the Mobile Handtevy Pediatric Resuscitation System.' To the right of this text is a checkbox labeled 'Handtevy Integration' which is checked.

Admin > EHR > Optional Configurations

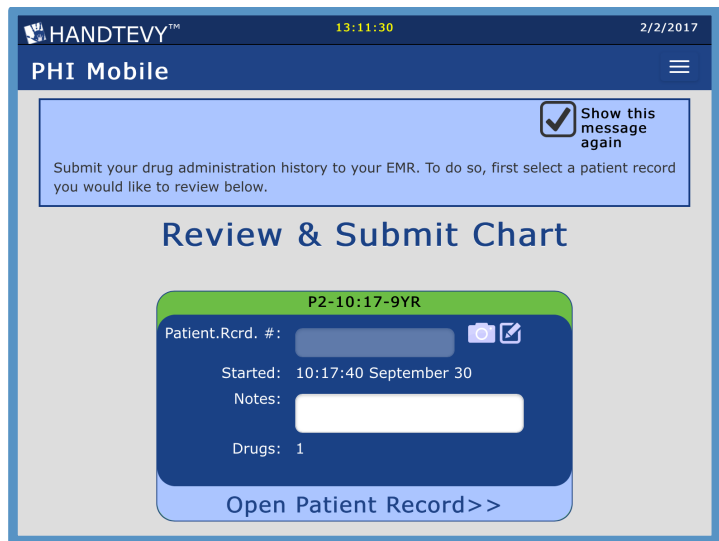

3. Perform system updates on your mobiles.

1. Within the Handtevy Mobile app, select [Review & Submit Chart] from the Main Menu.

Handtevy

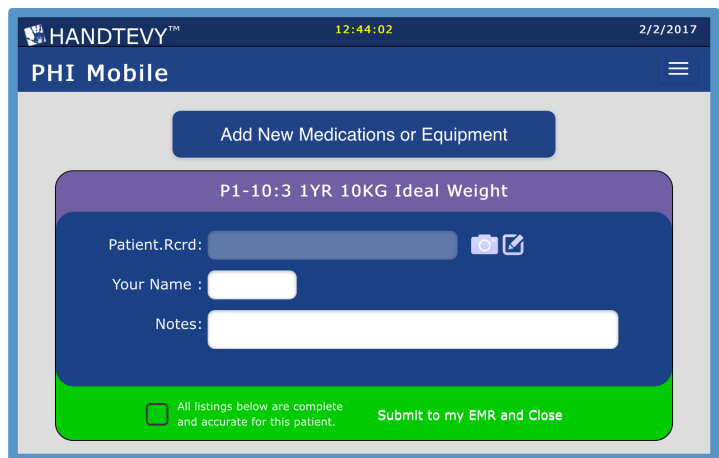

2. Open a patient record for transfer.

Handtevy

3. Check [All listings below are complete and accurate for this patient.] and click [Submit to my EMR and Close] to transfer the record to the ESO System.

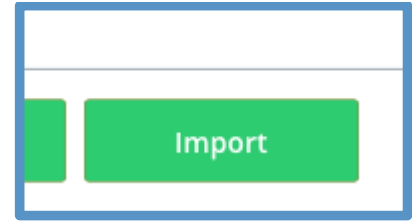

Note: Patient Record # is not required for transfer

Handtevy

1. Within a record, navigate to the Flowchart Tab and click [Import] located on the bottom right of the screen.

Note: If this button is not visible, refer to steps 2 and 3 in Administrative Setup

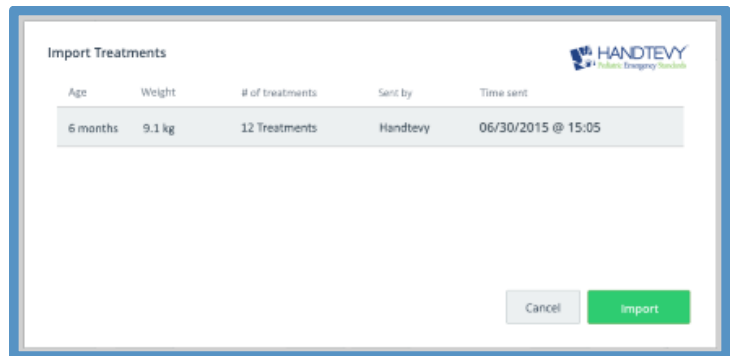

EHR > Record > Flowchart

2. Select the record that is associated with your patient and click [Import]

Note:

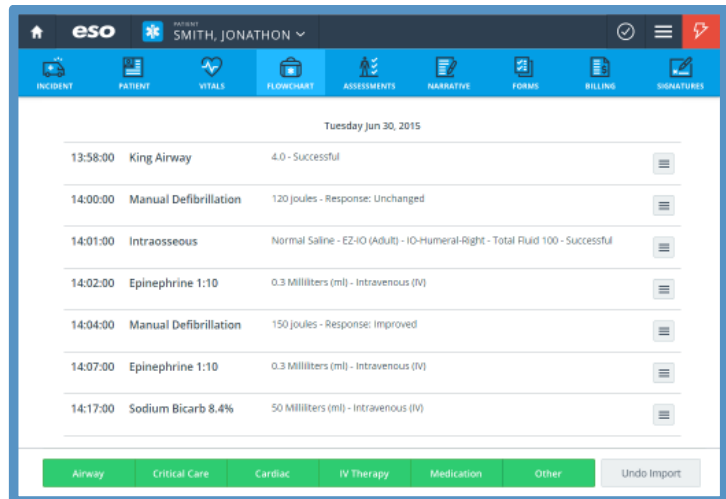

- Transferred records that have already been imported do not show up in the list.
- It may take a few minutes for a record to appear in this list after clicking Submit from the Handtevy Mobile Application.

EHR > Record > Flowchart > Import

3. Success!

Note: If you imported the wrong record, you can click [Undo Import] to receive another record.

EHR > Record > Header > Mobile-to-Mobile > Receive
