EHR Landing Page

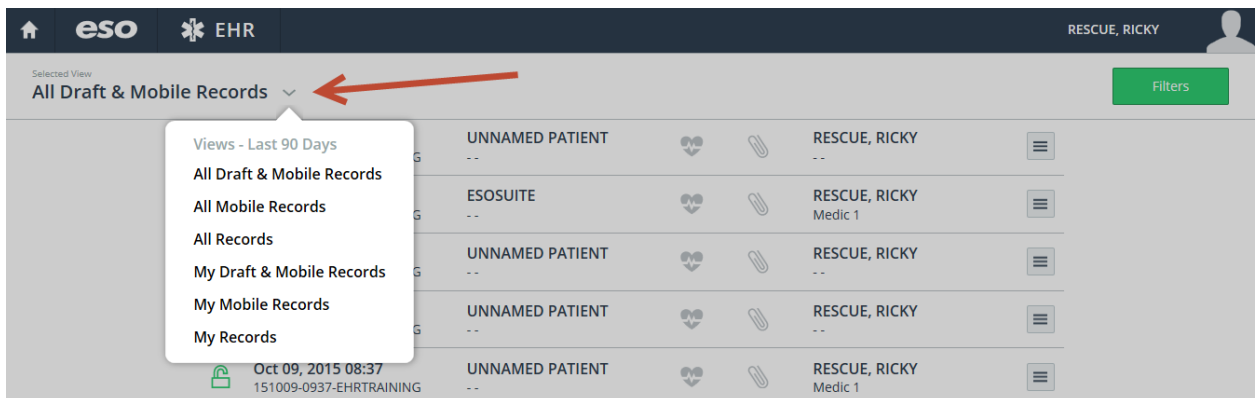

Incidents available to a user's view is based on their assigned security role. This page provides many features and operations related to the EHR(s)

EHR Views

If the incident you are looking for is not immediately available in the current view, you may change the view by using 1 or 2 features. These features are meant to provide you with the best combination of your patient record default and/or search results.

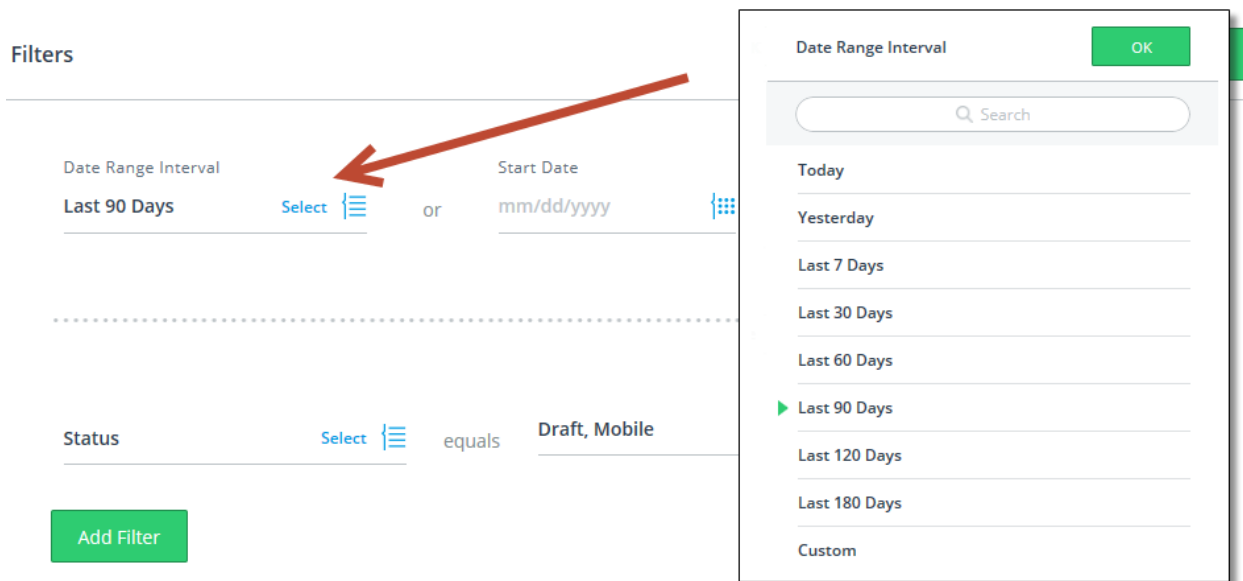

In the upper left under "Selected View" you will click the arrow to reveal the popover menu of available views for the types or records you'd like to see and choose one.

The chosen view can then be narrowed by using the second feature: Filters located on the right upper side.

Use the single select box to reveal additional choices for Date Range Interval. By choosing "Custom", simply use the number pad to select the date range

To add additional Filters, choose the Add Filter button under the Date Range Interval and single select a filter(s) to assist in your search

The screenshot displays the ESO EHR interface. At the top, the navigation bar includes the ESO logo, 'EHR', and the user name 'RESCUE, RICKY'. The main content area is titled 'Filters' and shows a configuration for 'All Draft & Mobile'. The 'Date Range Interval' is set to 'Last 90 Days', with a 'Select' dropdown menu. Below this, the 'Status' filter is set to 'Draft, Mobile', also with a 'Select' dropdown menu. A red arrow points to the 'Status' dropdown. An 'Add Filter' button is visible below the filter configuration. On the right side, a 'Filter' panel is open, showing a search bar and a list of filter categories: Deleted, Destination, Disposition, Incident Number, Patient Date of Birth, Patient First Name, Patient Last Name, Patient SSN, Priority, Provider, Response Zone, Run Type, Scene Address 1, Shift, Status (highlighted with a green arrow), and Unit. An 'OK' button is located at the top right of the filter panel.

For each added filter, you may be asked to type the desired search item, or single select from a list

Looking for a specific record? Try a [custom search](#).

To attach additional documents to the record, choose attachments. The dialog box will appear to allow the user to point to the chosen scanned document and attach.

To view Cardiac monitor files that may have been included on the call, choose this item to view them.

The ability to delete or search for deleted records is based on security role.

Logging Out

To log out, click anywhere in the upper right hand corner near your name or near the silhouette to bring up the word "Logout" click on Logout and the program will shut down.

The screenshot shows the top navigation bar of the ESO EHR system. On the right side, the user's name 'RESCUE, RICKY' is displayed next to a silhouette icon. A 'Logout' button is visible below the name. A red arrow points to this button. A tooltip is shown over the silhouette icon, containing the text 'RESCUE, RICKY' and a 'Logout' button. The main content area shows a list of records with columns for date, time, incident ID, and patient name.
