Or, pay online at: <https://staffordfpcp.virginiainteractive.org/Home/Index>

A permit, if granted, shall constitute permission to maintain, store or handle materials, or to conduct processes that produce conditions hazardous to life or property in accordance with the provisions of County and State codes and ordinances. Such permission shall not be construed as authority to violate, cancel or set aside any of the provisions of these codes. Said permit shall remain in effect until revoked, or for such period of time specified on the permit. Permits are not transferable and any change in use, operation or tenancy shall require a new permit.

The fire official may revoke a permit or approval under the provisions of these codes if:

1. Right of entry to the premises and/or vehicles for inspection at any reasonable time is denied to the fire official, or
2. Upon inspection, any violation of these codes exists or conditions of the permit have been violated, or
3. There has been any false statement or misrepresentation as to material fact in the application, data, or plans on which the permit or approval was based.

I hereby certify that I have read and examined this application and know the same to be true and correct. I agree to all the conditions set forth in this application, and I have consent for any reasonable fire code inspections required by the fire official.
