WARRENTON ROAD STAFFORD COUNTY, VA

FISCAL IMPACT ANALYSIS

APRIL 28, 2020

PREPARED BY:

NON-PROFFER FISCAL IMPACTS

This report provides estimates of non-proffered fiscal impacts to Stafford County resulting from the Warrenton Road residential development (the "Development"). The fiscal impacts include one-time construction impacts, one-time fees, and recurring revenues. This report also provides an estimate of the additional tax revenues and expenses that Stafford County may receive or incur as a result of the Development and contrasts the projected revenues with projected costs. Detailed calculations related to the fiscal impacts are included in the schedules appended hereto.

Development

The Development is situated on six parcels within Stafford County. As of January 1, 2020, the total assessed value of the parcels is \$1,377,200. The Development is expected to include 264 Multi-family apartment units and 114 townhouse units. Table A below shows the projected assessed value and real property taxes resulting from the completed Development.

TABLE A
Summary of Development

	Proper	ty Area ^(a)	Estimated Ma	Estimated Market Value (b)					
Property Type	Units	GSF	Per Unit	Per SF	Market Value				
<u>Residential</u>									
Apartments	264	346,951	\$181,537	\$138	\$47,925,697				
Townhouses	Γownhouses 114 251,503 \$270,017 \$122								
Total projected assessed va	lue at full b	uild-out (curre	nt dollars)		\$78,707,597				
Less: Base Value					(\$1,377,200)				
Net Projected Assessed		\$77,330,397							
Current real property		\$1.01							
Total projected re	Total projected real property tax at full build-out (current dollars)								

⁽a)Based on project information provided by S.L. NUSBAUM Realty Co.

As shown in Table A, the total projected real property tax revenues are estimated to be \$781,037 at full build-out.

⁽b) Estimated assessed value is based on Municap's research on properties near the development site. See Appendix D, attached hereto. Represents projected assessed value at full build-out, excluding inflation.

^(c)Represents the Fiscal Year 2020 tax rate.

Projection of Impacts

In estimating future fiscal and economic impacts on Stafford County, MuniCap employed a combination of accepted approaches for such forecasts.

To calculate construction employment and economic impacts, MuniCap used IMPLAN Professional 3.0 software developed by IMPLAN Group, LLC. IMPLAN is an industry-accepted economic impact assessment software system with which trained users can create local area *Social Accounting Matrices* and develop *Multiplier Models* that can be used to estimate detailed economic impacts.

For the inputs used in developing the models, such as density and cost, MuniCap relied on a variety of sources, which are noted in the appended schedules to this report. MuniCap, Inc. analyzed current commuting trends among employees in Stafford County to estimate the percentage of non-resident employees that represent an increase to the County's current service population.

To estimate population increases, MuniCap adopted U.S. Census Bureau data regarding median residents per owner-occupied units in Stafford County.

For the calculation of economic benefits, primarily those in the form of increased tax revenue, MuniCap applied the actual taxing methodology by multiplying the applicable tax rate by the estimated taxable item in question whenever possible. For instance, MuniCap estimated real property taxes by multiplying projected assessed value by the current applicable real property tax rate. Other revenues calculated in this manner include personal property taxes levied upon vehicles, vehicle license fees, consumer utility taxes, and recordation taxes. In some instances, MuniCap estimated revenues on a per capita basis, typically when the revenue source was not in the form of a tax. In other cases, MuniCap dismissed revenues that will likely increase as a result of the Development outright, as they represent charges for services that will likely be offset by the cost of providing said services.

To calculate fiscal impacts in the form of additional costs to Stafford County, MuniCap reviewed the approved budget of various departments of the County to determine the most appropriate approach to estimating potential increases. As with revenues, MuniCap estimated some expenses on a per capita basis using residents or service population, while in other cases, MuniCap pro rated expenses on an alternative basis, such as tax revenues. Finally, in cases when MuniCap dismissed charges for services from estimates of revenues, MuniCap also disregarded the corresponding costs for services from the estimation of expenses.

MuniCap assumed a uniform net annual increase in both revenues and expenses of two percent in future years. Tax rates are current as of the date of this report.

The schedules appended hereto provide specific calculations of impacts, along with the sources of the underlying assumptions.

Results of the Study

A. Employment Impacts and Economic Output

Table B summarizes the projected one-time employment impacts and economic impacts resulting from the construction of the Development. Direct jobs are jobs at the development site; indirect jobs are jobs created within Stafford County but not at the Development. Direct jobs represent full-time equivalent ("FTE") positions, converting both part-time and full-time employees to the equivalent number of full-time employees. Total income includes salary, benefits, payroll taxes, and proprietor's income. Impacts assume a one-year duration.

TABLE B
Construction-Related Impacts^(a)

Construction (One-Time) Impacts		
Employment and Income	<u>Jobs</u>	<u>Income</u>
Direct impacts (full-time equivalents)	429	\$22,255,355
Indirect and induced impacts	212	\$7,919,509
Total	641	\$30,174,864
Economic Output		
Direct impacts (construction cost) ^(b)		\$67,750,080
Indirect and induced impacts		\$27,398,706
Total		\$95,148,786
Average annual labor income per full-time employee		\$51,877

⁽a) Employment, income, and economic outputs are calculated using IMPLAN software based on industry multipliers derived from national income and product accounts data published by the U.S. Bureau of Economic Analysis. Detailed calculations are provided in the attached projections.

The methods of estimating employment impacts are explained in the subsequent schedules included in the appendix accompanying this report.

B. Population Impacts

Table C on the following page summarizes the projected residential population increase resulting from the Development.

⁽b) Provided by S.L. NUSBAUM Realty Co.

TABLE C
Population Impacts – Residents

Development Type	Occupied Units ^(a)	Residents Per Unit ^(b)	Total Projected Residents
Apartments	253	2.57	650
Townhouses	114	2.91	332
Total (all units)	367		982

⁽a) Source: S.L. NUSBAUM Realty Co.

C. Fiscal Impacts

Table D summarizes the projected revenues to Stafford County through fiscal year ending June 30, 2052 based on the projected development under the current plan. Annual revenues are shown at full build-out in current dollars. The thirty-year cumulative revenues reflect projected absorption and inflation.

TABLE D

<u>Projected Revenues</u>

<u>Cumulative through Fiscal Year Ending June 30, 2052</u>

	Annual (Current	Cumulative through Fiscal
Stafford County Gross	Dollars at Full	Year Ending
Tax Revenues - Full Build-Out	Build-Out)	June 30, 2052
Real property tax revenues	\$781,037	\$31,977,082
Personal property tax revenues (vehicles)	\$333,182	\$13,491,882
Vehicle license fees	\$14,913	\$603,894
Utility tax revenues	\$11,954	\$631,052
Recordation tax revenues (a)	\$2,932	\$130,232
Additional tax revenues	\$162,569	\$6,573,845
Stafford County gross revenues	\$1,306,587	\$53,407,987

⁽a) Annual recordation tax revenues were recognized on the basis of resale of residential homes in the Development. One-time revenues from the initial sale of residential units were not included in this figure, but were included in the cumulative column.

⁽b) Residential unit generation factors. Source: Stafford County, Virginia County Comprehensive Plan 2016-2036.

Table E, below, summarizes the projected County expenditures and resultant net tax revenues generated by the Development, both annually and cumulatively over a thirty-year period.

TABLE E <u>Projected Net Revenues</u> Cumulative Through Fiscal Year Ending June 30, 2052

Stafford County Projected Net Revenues	Annual (Current Dollars at Full Build-Out)	Cumulative Through Fiscal Year Ending June 30, 2052
Stafford County projected gross revenues	\$1,306,587	\$53,407,987
Less: projected expenditures for public services Stafford County projected operating expenditures	(\$1,217,968)	(\$48,627,383)
Projected Net County Revenues	\$88,619	\$4,780,604

The projected revenues and expenditures from the Development would translate to an approximate 0.41 percent and 0.38 percent increase over the current County budget as shown in Table F below.

TABLE F
Projected Increase to Current County Revenues and Expenditures

Comparison of Projected Revenues and Expenditures	Revenues	Expenditures							
Stafford County current revenues and expenditures (a)	\$318,852,703	\$318,852,703							
Proposed Development projected revenues and expenditures	\$1,306,587	\$1,217,968							
Overall increase in projected revenues and expenditures	0.41%	0.38%							
(a) Source: Stafford County, Virginia FY 2020 Adopted Budget.									

Limitations

Projecting fiscal and employment impacts is inherently imprecise, particularly when results are extrapolated over several years. Furthermore, there are different methods of projecting fiscal and employment impacts and different analysts will arrive at different conclusions. The conclusions in this study are not intended to be precise results; they are intended to represent reasonable estimates of the potential fiscal and employment impacts to Stafford County from the Development.

DRAFT Page 3 DRAFT

¹Real property is assessed for taxation as of January 1.

²Property assessed as of January 1, 2020 will pay it's final property tax payment of the year on December 5, 2020, which corresponds with fiscal year ending June 30, 2021.

³ Assumes an annual inflation rate of 2% starting in Fiscal Year Ending 2023. Inflation rate accounts for annual increasing assessed value. Property in the Stafford County is reassessed every even year; as a result, the inflation factor is set to adjust in years of the biennial revaluation. Source: Stafford County Office of the Commissioner of the Revenue.

⁴See Schedule II.

⁵See Schedule I.

Schedule III-B: Projected Real Property Tax - Projected Tax Revenues

DRAFT Page 4 DRAFT

¹Real property is assessed for taxation as of January 1.

²Property assessed as of January 1, 2020 will pay it's final property tax payment of the year on December 5, 2020, which corresponds with fiscal year ending June 30, 2021.

³ Assumes an annual inflation rate of 2% starting in Fiscal Year Ending 2023. Inflation rate accounts for annual increasing assessed value. Property in the Stafford County is reassessed every even year; as a result, the inflation factor is set to adjust in years of the biennial revaluation. Source: Stafford County Office of the Commissioner of the Revenue.

⁴See Schedule III-A.

⁵See Appendix E.

⁶Represents the tax year 2020 rate. Source: Stafford County Commissioner of the Revenue.

MuniCat. Inc.			20 4+- 20

Source for apartment vacancy rate: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates. Assumes zero percent vacancy for townhouse units.

⁵Pursuant to Chapter 25 of Title 15.2 of the Code of Virginia, a tax relief, set by the taxing jurisdiction, is provided on qualifying vehicles with an assessed value between \$1,000 and \$20,000. In order to qualify for the Personal Property Tax Relief Act (PPTRA), a vehicle, including motorcycles, must be used for non-business and owned or leased by a natural person. Stafford County PPTRA Relief rate is 42% however, the relief is ultimately given back to the County and therefore is not included as a deduction in revenue generation. Source: Stafford County Commissioner of the Revenue.

² Apartment vehicles were based on average number of vehicles per occupied rental unit in the County, Townhouse vehicles were based on average number of vehicles per owner-occupied unit in the County Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates.

³Stafford County assesses the value of vehicles at 40% of retail selling price. Represents 40% of the average retail selling price of used vehicles sold in 2016 as provided in NADA Data 2016 Ammal Financial Profile of America's Franchised New-Car Dealerships.

⁴Represents the Fiscal Year 2020 tax rate. Source: Stafford County, Virginia FY 2020 Adopted Budget.

⁶Figure assumes full build out and is expressed in current dollars.

MuniCap, Inc.

¹Assumes an annual inflation rate of 2% starting in Fiscal Year 2023.

²See Schedule I.

³See Schedule II. Assumes apartments are not sold and are held by the developer.

⁴Assumes properties are closed with buyers in the same year as they are completed. See Schedule II. Based on U.S. Census Bureau data for 2017, the median year householders moved into owner-occupied units was 2003, implying a median tenure of fourteen years. Accordingly, calculations herein assume that, after initial sales, one-fourteenth of all units are resold annually. Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates.

MuniCap, Inc. 28-Apr-20

¹Assumes an annual inflation rate of 2%.

²See Schedule VI-A

³Local recordation tax rate is equal to one-third of the amount of the State recordation tax provided in Code of Virginia Section 58.1-801. The State rate is \$0.25 for every \$100 for the grantee. Therefore, the County rate is \$0.0833 per \$100. The local recordation tax rate is \$.25 per \$500 for the grantor. Source: Virginia Supreme Court Circuit Court Deed Calculation.

DRAFT Page 12 DRAFT

¹Not all sources of revenues are expected to be impacted as a result of the project. Revenues shown represent general fund revenues only. In addition, some fees are assumed to directly offset specific expenditures also not included in this analysis.

²Source: Stafford County, Virginia FY 2020 Adopted Budget . Figures represent FY 2020 adopted amounts.

³Method of apportioning revenues: Per resident revenues are calculated by taking current revenues and apportioning them among current resident population.

⁴Represents current statistics for the County. See Appendix A.

⁵Represents projected increase to County as a result of the proposed development. See Appendix A.

⁶Represents total increase in revenues as a result of proposed project on an annual basis. Figures assume full build out and are expressed in current dollars.

DRAFT Page 15 DRAFT

¹ Not all expenditures are expected to be impacted as a result of the project.

 $^{^2} Source: \textit{Stafford County, Virginia} \ FY\ 2020\ \textit{Adopted Budget}. \ Represents\ net\ tax\ supported\ Adopted\ Budget.$

³Method of apportioning expenditures: Per resident costs are calculated by taking current expenditures and apportioning them among the current service population (i.e. total permanent population and employees who do not reside in the County). Per employee costs are calculated by taking current expenditures and apportioning them among the current expenditures and apportioning them among the current expenditures and apportioning them among the current student population. Per \$1,000's of tax revenue costs are calculated by taking current expenditures and apportioning them among current total tax revenues.

⁴See Appendix A

⁵Represents the total increase in costs as a result of the proposed development on an annual basis. Figures assume full build out and are expressed in current dollars.

Appendix A: Revenues and Cost to Stafford County (Allocation Factors)

Stafford County permanent population ¹	149,110
Stafford County labor force ²	35,069
Non-resident workers ²	23,557
Employee population equivalent (100% of Non-resident workers)	23,557
Total service population (Stafford County permanent population + employee population equivalent) ³	172,667
Service population rates:	
Resident	1.00
Employee ³	1.00
Expected resident increase:	
Apartment units	264
Vacancy rate ⁴	4.2%
Occupied units	253
Persons per unit ⁵	2.57
Projected apartment resident increase	650
Townhouse units	114
Persons per unit ⁵	2.91
Projected townhouse resident increase	332
Total resident increase	982
Total projected service population increase	982
Projected students:	
Occupied apartment units	253
Student generation factor ⁵	0.227
Projected apartment student increase	57
Townhouse units	114
Student generation factor ⁵	0.544
Projected townhouse student increase	62
Total student increase	119
Current students enrolled in public school system (K-12) ⁶	29,351
Current countywide real property tax revenues (per \$1,000) ⁶	\$176,262
Projected increase in countywide real property tax revenues (per \$1,000) ⁷	\$1,426
6	
Current countywide tax revenues (per \$1,000) ⁶	\$318,853
Projected increase in countywide general tax revenues (per \$1,000) ⁸	\$2,378

DRAFT B-2 DRAFT

See prior page

²Development is only residential. It is assumed that permanent employees are not generated.

³Represents the percentage of employees assumed to work, but not live, within Stafford County. See Appendix A.

⁴Represents the increase in employees who work but do not live in the County as a result of the proposed development.

⁵Represents the increase in service employees and residents as a result of the proposed development.

Appendix F: Temporary Construction Jobs and Indirect Impacts

Total projected construction costs ¹	<u>Total</u> \$67,750,080
Total construction jobs ²	447
Construction full-time equivalent factor ³	0.9595
Total construction full-time equivalent employees ("FTE's")	429
Total construction labor income ²	\$22,255,355
Labor income to wages factor ⁴	1.1989
Total wages	\$18,563,802
Average labor income per construction FTE annual	\$51,877
Average wage per construction FTE annual	\$43,272
Multiplier for construction wages ²	1.3558
Total income	\$30,174,864
Indirect and induced income	\$7,919,509
Multiplier for construction jobs ²	1.4733
Total jobs	659
Indirect and induced jobs	212
Multiplier for construction output ²	1.4044
Total economic output	\$95,148,786
Indirect and induced output	\$27,398,706

¹All cost estimates were provided by S.L. NUSBAUM Realty Co.

28-Apr-20

²Construction income, indirect jobs and output were calculated using the IMPLAN software by IMPLAN Group LLC. The software calculates labor income and the number of jobs based on industry multipliers derived from National Income and Product Accounts data published by the U.S. Bureau of Economic Analysis. This data is then indexed to local industry data compiled by the U.S. Census Bureau. For ease of interpretation, multipliers are shown to illustrate the effects retail development within the development will have in the Stafford County, Virginia. The multiplier for jobs is 1.4733, meaning that for each job at the development, 1.4733 jobs will be created in Stafford County, including the job at the new development. Similarly, the multiplier for wages is 1.3558, meaning that for every \$1.00 paid in wages at the development, \$1.3558 will be paid in Stafford County, including the \$1.00 at the development. The multiplier for output is 1.4044 meaning that for each dollar of economic activity at the development, the economic activity in Stafford County will be \$1.4044, including the \$1.00 at the development.

³Total jobs include all full-year employees, including part-time and full-time employees. This factor, provided by IMPLAN Group LLC, converts total jobs into total full-time equivalent employees ("FTE's").

⁴Total labor income includes wages and salary, benefits, payroll taxes, and proprietor's income. This factor, provided by IMPLAN Group LLC. converts total labor income into direct wages and salary.
